Bones Located on Kitterman Road Identified

Sheriff Ken Mascara announced that the bones located on July 12 at a construction site behind the Speedway gas station on Kitterman Road were that of Calvin Douglas Parrott. Parrott would have been 70 years of age.

According to the Sheriff, Parrott was last seen or heard from in 2002 and was believed to have been homeless, living in the Kitterman Road area.

“After a construction crew uncovered these remains, they were sent to our regional crime laboratory for analysis and then forwarded to the C.A. Pound Human Identification Laboratory in the Department of Anthropology at the University of Florida,” said Sheriff Ken J. Mascara. “It was the lab that linked the bones to Calvin Parrott.”
